

Readymix Qatar

LAFARGE
Building better cities™

Readymix Qatar
Company Profile

Readymix Qatar

Our Heritage

- Readymix Qatar went into production in March 1978 with one batching plant in the Old Airport area of Doha and now in 2013 Readymix Qatar operates sixteen batching plants in ten different locations, this is complemented with 138 large capacity concrete truck mixers, 33 cement tankers and 28 concrete pumps. Aggregate deliveries are assisted from within the group via CMC's fleet of 50 high spec and safety compliant tippers.
- Since its inception the company has successfully been the supplier to many major projects, Ras Laffan Industrial City, Msheireb Downtown Doha, Education City for Qatar Foundation, Qatar Primary Route North Road package, Al Ruwais Port – Phase II and the Barzan On Shore Project are to name a few current operations with many more in the pipeline.
- Readymix Qatar has carried out pioneering work in the use of microsilica, PFA & GGBS based concrete mixes, which now have become widely accepted to counter the aggressive conditions encountered by concrete structures in the Gulf Region.

Readymix Qatar

About Us

- Market leader in Qatar.
- Currently operate 6 Project on-site batching plants in addition to 11 fixed plants.
- Long term JV with Stevin Rock to safe-guard coarse aggregate supplies.
- Newly updated fleet of Vehicles, 145 Transit Mixers, 28 Mobile Concrete Pumps and 33 cement tankers.
- Mobile Batching Plants available for large projects.

About Us

Quality

- The company has fully equipped laboratories at each plant location with fully trained technical staff that are familiar with Quality Assurance schemes to BS 5750 (ISO 9002).
- RMQ holds ISO 9001:2008 certification.

- World leader in building materials, Lafarge extracts resources from the heart of the earth to make materials to bring to the heart of life.
- Present in 64 countries, the Group responds to the world's demand for housing and infrastructure.
- Lafarge is driven by the needs of its customers, shareholders, local communities and architects.
- The Group creates high value-added solutions which encourage creativity whilst leaving a lighter trace on the world.

Mission: anticipate needs to drive advances in construction methods

- Lafarge designs and produces building materials to meet the requirements of people throughout the world for:
- Sustainable construction,
- Essential infrastructure for economic growth and social progress.
- Housing,
- Transport,
- Healthcare,
- Education.

Solid values: respect, care, rigor

- Essential values guide Lafarge's development:
- integrity,
- ethics,
- courage,
- empathy,
- openness,
- commitment.

Lafarge believes that ongoing advances in building materials must integrate respect for people, their different needs and their environment. This strong conviction is reflected in a strategy which combines industrial know-how with:

- performance,
- value creation,
- respect for employees and local cultures,
- environmental protection,
- conservation of natural resources and energy.

Experience

Nakhilat Ship Repair Yard, Ras Laffan

- **The Contractor**

- Daewoo Engineering & Construction

DAEWOO E&C

- **The Scheme**

- USD \$611 million project on 43 hectares of reclaimed land.
- Comprising of two dry docks, one dock 400m long x 43m wide and the other 360m long x 66m wide, both with 12m of water over the sill.
- The design also includes one floating dock 230m long x 38m wide with a 20,000 tonne lift capacity; a quay with six full length berths, totaling 2.4 Kms in length.

Experience

Nakhilat Ship Repair Yard, Ras Laffan

Nakhilat Ship Repair Yard

- Three Liebherr Readymix Plants erected on site by Readymix Qatar.
- In excess of 850,000 m³ of concrete supplied over an 18 month time period.
- Imported limestone aggregate by barge to adjacent jetty.

Experience

Ceremonial Road / North Road Qatar

- **The Contractor**

- Tekfen

- **The Scheme**

- 18. Reinforced concrete bridges and intersections.
- 450,000 m³ of Readymix concrete supplied.
- On site project batching plant with backup plants.

Ceremonial Road - Doha

Experience

Msheireb – Heart of Doha

- **The Client**

- Msheireb Properties

مشيرب العقارية
MSHEIREB PROPERTIES

- **The Scheme**

- Mixed use development.
- 1,150,000 m³ of Readymix concrete in the scheme.
- Two on site project batching plants.
- 100 year design life concrete
- LEED Certified

Msheireb Heart of Doha

Experience

Cement Works - GCC

- **The Contractor**
 - Simplex Infrastructures Ltd.

- **The Scheme**
 - Construction of a new Cement Works for GCC.
 - 120,000m³ supplied to Simplex Infrastructures from a dedicated on site project batching plant.
 - Slip form concrete running 24 hours a day over a calendar month

Value Added Products

A range of versatile specialist concretes ideal for bespoke construction applications.

Ultra Fibre - polypropylene micro fibre reinforced readymix concrete.

Ultra Waterproof - specially designed concrete solution to waterproofing needs that includes a pore blocking system to provide low permeability.

Ultra Foamed - This is a fluid mortar ideal for filling all kinds of natural or artificial excavations.

Ultra Durable - This product offers superior qualities to conventional concrete, including improved resistance to exposure and enhanced durability.

Ultra Low Heat - Ready mix concrete technical design based on high quality cement replacement, reducing core temperature heat

Whether coarse or smooth, natural or sophisticated, Artevia™, concrete ranks among the most elegant decorative materials in the world. Fully customisable, Artevia™ concrete combines design and performance, offering a rich colour palette, incomparable textured effects and infinite freedom of design.

The new concrete technology used in **Agilia™** products allows for placing without difficulty, providing excellent quality concrete with outstanding surface finishes.
